Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
The Raytheon Savings and Investment Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Raytheon Savings and Investment Plan (the "Plan") at December 31, 2005 and December 31, 2004, and the changes in net assets available for benefits for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2005 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Raytheon Savings and Investment Plan

Notes to Financial Statements

1. Description of Plan

General

The following description of the Raytheon Savings and Investment Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a complete description of the Plan’s provisions.

The Plan is a defined contribution plan covering the majority of employees of Raytheon Company (the “Company”). Most employees are immediately eligible to enroll in the Plan on the first day of service. The purpose of the Plan is to provide participants with a tax-effective means of meeting both short-term and long-term investment objectives. From January 1, 2000 until December 31, 2001, the entire Plan was an employee stock ownership plan (ESOP) that included a qualified cash or deferred arrangement under the Internal Revenue Code (the “Code”). Effective January 1, 2002, the portion of the Plan that is invested in Raytheon Company stock is an ESOP that includes a cash or deferred arrangement, and the remaining portion of the Plan is a profit-sharing plan that includes a cash or deferred arrangement. The ESOP is intended to be an employee stock ownership arrangement in compliance with all of the related requirements for a qualified stock bonus plan as defined in the Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan’s investments are principally held in the Raytheon Savings and Investment Plan Trust (the “Trust”).

Contributions and Deferrals

Employees may contribute up to 50% of their compensation to the Plan. Employee contributions, including rollovers, are invested based on participant elections. For 2005, the annual employee pre-tax elective deferral contributions for a participant cannot exceed \$14,000, except for catch-up contributions. Participants also may make after-tax contributions, but total employee (pre-tax and after-tax) contributions and employer contributions may not exceed \$42,000 for the 2005 plan year. A participant who is eligible to make elective pre-tax contributions and is at least age 50 by the end of 2005 may make pre-tax catch-up contributions up to \$4,000. The limits on pre-tax elective deferral contributions and on catch-up contributions will each increase at a rate of \$1,000 per year through 2006.

For most employees, the Company matches 100% of the first 4% of compensation that a participant contributes to the Plan each pay period. Matching Company contributions made before January 1, 2005, were invested in the Raytheon Common Stock Fund and were required to be held in that fund until the beginning of the fifth plan year following the plan year for which the contribution was made or January 1 of the year the employee turns age 55, if earlier. For most participants, matching Company contributions made after December 31, 2004, are made in cash and are invested based on the investment allocation for employee contributions.

Before January 1, 2005, the Company also made an ESOP contribution equal to one-half of one percent of the participant’s compensation up to \$205,000. The Company ceased to make that contribution for most participants effective December 31, 2004. The portion of the Plan consisting of ESOP contributions and earnings provides for investment primarily in the Raytheon Common Stock Fund; however, as required by the Code, the Plan permits limited diversification among other investment options, after a participant attains age 55 and completes 10 years of plan participation (including participation in the prior ESOP plans).

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

Participants may invest contributions in increments of 1% in any combination of investment alternatives available, subject to percentage limitations applicable to some funds. The investment objectives range from investments with an emphasis on preservation of capital to equity investments with an emphasis on capital gains. The underlying investments include cash and equivalents, investment contracts, registered investment companies, common collective trusts, common stock, Raytheon Company common stock, bonds and other investments.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and an allocation of Plan earnings. Plan earnings are allocated based on account balances by investment option. Expenses payable by the Plan are charged to Participant accounts.

Participants are not permitted to make a direct exchange from the Fixed Income Fund to the Fidelity Retirement Money Market Portfolio because they are competing funds. All money has to be exchanged to a noncompeting fund for at least 90 days before being exchanged into the Fidelity Retirement Money Market Portfolio.

Vesting

With the exception of certain union groups, all employee and employer contributions including ESOP contributions and earnings thereon are immediately 100% vested for each participant who performs an hour of service on or after January 1, 1999. Forfeitures of the nonvested portions of terminated participants' accounts are available to reduce Company contributions. At December 31, 2005 and 2004, unallocated plan forfeitures were \$6,077,131 and \$5,628,284, respectively. During 2005, the total amount of forfeitures was \$444,498.

Distributions to Participants

A participant may make certain in-service withdrawals, including all or a portion of participant after-tax contributions and related earnings at any time and all or a portion of participant pre-tax contributions, employer contributions and related earnings upon attainment of age 59 $\frac{1}{2}$. For reasons of financial hardship, a participant may withdraw all or a portion of participant pre-tax contributions and related earnings subject to a reduction in the maximum participant pre-tax contribution rate for the next six months. On termination of employment, a participant will receive a lump-sum distribution unless the vested account is valued in excess of \$1,000 (\$5,000 before March 28, 2005), and the participant elects to defer distribution. Otherwise, a terminated participant may defer the distribution until April 1 of the year following the year in which the participant reaches age 70 $\frac{1}{2}$.

Effective August 1, 2000, participants who have investments in the Raytheon Common Stock Fund may elect to reinvest dividends within the Plan or receive dividends in cash. Any dividends received in cash by participants will be subject to taxes in the year of receipt. In 2005, the Company's Board of Directors declared dividends of \$0.88 per share. Of the \$40,709,847 in dividends paid to the Plan, approximately \$1,814,229 was received in cash by participants who elected the cash payment option.

[Table of Contents](#)

Raytheon Savings and Investment Plan

Notes to Financial Statements

Loans to Participants

A participant may borrow a portion of the balance in the participant's account, subject to certain restrictions. The maximum amount of a loan is the lesser of one-half of the participant's account balance or \$50,000. The minimum loan is \$500. Loans are secured by the balance in the participant's account and bear interest equal to the prime rate published in *The Wall Street Journal* on the first business day of the calendar quarter in which the loan is made. Loans must be repaid over a period of up to five years by means of payroll deductions, except that if the loan is used to acquire a dwelling which is to be used as a principal residence of the participant, the repayment period may extend to up to 15 years. Loan payments and interest payments are credited to the borrower's account in the investment fund or funds according to the participant's current investment election. Loans are valued at principal outstanding. As of December 31, 2005, the interest rates on the outstanding loans ranged from 4.00% to 10.33%.

Administrative Expenses

Substantially all expenses of administering the Plan, such as legal and other administration fees, are charged to participant accounts, usually allocated evenly among all accounts based on the number of participants. Administrative expenses not paid by the Plan may be paid by the Company.

2. Summary of Significant Accounting Policies

The accompanying financial statements are prepared on the accrual basis of accounting.

Plan investments are stated at fair value except the Plan's benefit-responsive investment contracts which are included in the financial statements at their contract value, defined as net employee contributions plus earnings, less participant withdrawals and administrative expenses. Investments in registered investment companies and common collective trusts are valued at the closing net asset value reported on the last business day of the year. Investments in securities (common stocks) traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. Investments in fixed income securities (U.S. government, domestic bonds) are valued by a pricing service based upon market transactions at fair value as determined in good faith by the trustee of the Trust. Future contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Cash equivalents are short-term money market instruments and are valued at cost, which approximates fair value. Investments denominated in foreign currencies are translated into U.S. dollars using the last reported exchange rate.

Security transactions are recorded on the trade date. Payables for outstanding purchases represent trades which have occurred but have not yet settled and are recorded on the statement of net assets available for benefits.

The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Distributions are recorded when paid.

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles, requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from the estimates included in the financial statements.

The Plan provides for various investment options in any combination of stocks, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Investments

The following presents investments that represent five percent or more of the Plan's net assets:

| | 2005 | 2004 |
|-------------------------------------|------------------|------------------|
| Raytheon Common Stock Fund** | \$ 1,799,486,708 | \$ 1,881,301,235 |
| Fidelity Equity Income Fund | 891,433,526 | 913,449,216 |
| S&P 500 Index Fund | 717,441,314 | 709,817,728 |
| State Street Bank and Trust GIC | 575,518,026 | 555,996,973 |
| Fidelity Magellan Fund | — | 488,925,080 |
| Fidelity Balanced | 534,879,885 | 464,118,221 |
| Chase Manhattan Bank GIC | 475,302,254 | 459,252,992 |
| AIG Financial Products Corp ACT GIC | 475,301,011 | 459,251,821 |

** Amount is made up of both participant and non-participant directed amounts.

During the year ended December 31, 2005 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$211,872,804 as follows:

| | |
|---------------------------------|-----------------------|
| Registered investment companies | \$ 93,545,590 |
| Common collective trusts | 39,840,511 |
| Raytheon Company common stock | 59,050,214 |
| Other investments | 19,436,489 |
| | \$ 211,872,804 |

Table of Contents

Notes to Financial Statements

4. Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

| | 2005 | 2004 |
|------------------------------------|---|-----------------------|
| Net Assets | | |
| Raytheon Company common stock | \$ 803,898,707 | \$ 942,907,603 |
| Cash and cash equivalents | <u>7,311,855</u> | <u>10,462,336</u> |
| | <u>\$ 811,210,562</u> | <u>\$ 953,369,939</u> |
| | | 2005 |
| Changes in net assets | | |
| Contributions | \$ 31,901,170 | |
| Dividends and interest | 25,008,129 | |
| Net appreciation of investments | (2,313,651) | |
| Distribution to participants | (56,319,241) | |
| Administrative expenses | (118,656) | |
| Net transfers to other investments | <u>(140,317,128)</u> | |
| | <u><u><u><u><u>\$ (142,159,377)</u></u></u></u></u> | |

5. Investment Contracts

The Plan invests in benefit-responsive synthetic guaranteed investment contracts (“GICs”) with financial institutions. The contracts are included in the financial statements at contract values, as reported to the Plan by the financial institutions. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Income from GICs is reported net of administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value with limited restrictions related to the transfer of funds into a competing fund investment option. In determining that contract value approximates fair value, the Plan considers such factors as the benefit responsiveness of the investment contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by an issuer of an investment security.

Synthetic GICs represent individual assets placed in a trust, with ownership by the Plan, that also contain a third party issued benefit-responsive wrapper contract that guarantees that participant transactions are executed at contract value. Individual assets of the synthetic GICs are valued based on the policy in Note 2. The value of the wrapper is the difference between the fair value of the underlying assets and the contract value. At December 31, 2005, the value of the wrappers was \$(673,653).

On December 29, 2005, The Financial Accounting Standards Board (FASB) released FASB Staff Position Nos. AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (FSP). The FSP clarifies the definition of fully benefit-responsive investment contracts for contracts held by defined contribution plans. The FSP also establishes enhanced financial statement presentation and disclosure requirements for defined contribution plans subject to the FSP effective for financial statements for issued for periods ending after December 15, 2006.

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

Management intends to adopt the FSP in the Plan's financial statements for the year ended December 31, 2006. The effect of the FSP on the Plan's financial statements is expected to include enhanced financial statement presentation and disclosure requirements.

For example, benefit-responsive investment contracts and bank collective trusts that hold benefit-responsive investment contracts will be presented at fair value on the statement of net assets available for benefits and the amount representing the difference between fair value and contract value of the investment contracts or bank collective trusts shall be presented on the face of the statement of net assets available for benefits as a single amount, calculated as the sum of the amounts necessary to adjust the portion of net assets attributable to each fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits shall be prepared on a basis that reflects income credited to participants in the Plan and net appreciation or depreciation in the fair value of only those investment contracts that are not deemed to be fully benefit-responsive.

In addition, the following will be required to be disclosed:

- A description of the nature of the benefit-responsive investment contracts, how they operate, and the methodology for calculating the interest crediting rate.
- The average yield earned by the Plan for all fully benefit-responsive investment contracts for the year.
- The average yield earned by the Plan for all fully benefit-responsive investment contracts with an adjustment to reflect the actual interest rate credited to participants in the Plan for the year.
- A description of the events that limit the ability of the Plan to transact at contract value with the issuer.
- A description of the events and circumstances that would allow issuers to terminate fully benefit-responsive investment contracts with the Plan and settle at an amount different from contract value.

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

The crediting interest rates are adjusted quarterly to reflect the experienced and anticipated yields to be earned on such investments, based on their book value. The average yield and crediting interest rates were as follows:

| | <u>Average Yield</u> | <u>Crediting Interest Rate</u> |
|--------------------------------------|----------------------|--------------------------------|
| For the year ended December 31, 2005 | | |
| Chase Manhattan Bank (429666) | 5.04% | 5.12% |
| State Street Bank and Trust (99054) | 5.04% | 5.13% |
| AIG Financial Products Corp (541687) | 5.04% | 5.12% |
| UBS Warburg (3088) | 5.04% | 5.11% |
| For the year ended December 31, 2004 | | |
| Chase Manhattan Bank (429666) | 4.86% | 5.00% |
| State Street Bank and Trust (99054) | 4.88% | 5.01% |
| AIG Financial Products Corp (541687) | 4.86% | 5.00% |
| UBS Warburg (3088) | 4.85% | 4.99% |

6. Future Contracts

A future contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated future exchange.

As described in Note 5, the synthetic GICs represent individual assets placed in a trust, with ownership by the Plan. As of December 31, 2005 and 2004, the synthetic GICs contained future contracts. The Plan uses fixed income future contracts to manage exposure to the market. Buying futures tends to increase the Plan's exposure to the underlying instrument. Selling futures tends to decrease the Plan's exposure to the underlying instrument held, or hedge the fair value of other fund investments. The Plan does not employ leverage in its use of futures, thus cash balances are maintained at a level at least equal to the contract value of the futures.

Future contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Upon entering into a future contract, the Plan is required to deposit either in cash or securities an amount equal to a certain percentage of the nominal value of the contract ("initial margin"). Pursuant to the future contract, the Plan agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the future contract. Such receipts or payments are known as "variation margin" which are settled daily and are included in the realized gains (losses) on future contracts. In addition, the Plan pledges collateral, generally U.S. government bonds, for open fixed income future positions.

Future contracts involve, to varying degrees, credit and market risks. The Plan enters into future contracts on exchanges where the exchange acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange. The daily settlement on the future contracts serves to greatly reduce credit risk. Losses in value may arise from changes in the value of the underlying instrument or if there is an illiquid secondary market for the contracts. In addition, there is the risk that there may not be an exact correlation between a future contract and the underlying index or security.

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

A summary of the open fixed income futures as of December 31, 2005 and 2004 is presented below:

| | Long Contracts | | | | Short Contracts | | | | |

7. Swaps

The Plan may invest in interest rate swap contracts. The Plan uses interest rate swap contracts to manage its exposure to interest rates. Interest rate swap contracts entered into by the Plan typically represent the exchange by the Plan with a counterparty of a commitment to make variable rate and fixed rate payments with respect to a notional amount of principal. Such contracts may have a term of one to ten years, but typically require periodic interim settlement in cash, at which time both the value of the index or security and the specified interest rate are reset for the next settlement period. During the period that the swap contract is open, the contract is marked-to-market as the net amount due to or from the Plan in accordance with the terms of the contract based on the closing level of the relevant index or security and interest accrual through the valuation date. Changes in the value of the swap contract are recorded as unrealized gains or losses, while periodic cash settlements are recorded as realized gains or losses.

The Plan also invests in credit default swaps. Credit default swap contracts entered into by the Plan typically represent the exchange by the Plan with a counterparty of a commitment to provide a level of credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. Providing credit protection to a counterparty tends to increase a Plan's exposure to the underlying instrument. Receiving credit protection from a counterparty tends to decrease a Plan's exposure to the underlying instrument held by a Plan, or hedge the fair value of other Plan investments. Such contracts may have a term of one to ten years, but typically require periodic interim settlement in cash. During the period that the credit default swap contract is open, the contract is marked-to-market in accordance with the terms of the contract based on the current interest rate spreads and credit risk of the referenced obligation of the underlying issuer and interest accrual through valuation date. Changes in the value of the credit default swap are recorded as unrealized gains or losses, while periodic cash settlements are recorded as realized gains or losses.

Raytheon Savings and Investment Plan

Notes to Financial Statements

Entering into a swap contract involves, to varying degrees, elements of credit, market and interest rate risk in excess of the amounts reported in the Statement of Net Assets Available for Benefits. Notional principal amounts are used to express the extent of involvement in the transactions, but are not delivered under the contracts. Accordingly, credit risk is limited to any amounts receivable from the counterparty. To reduce credit risk from potential counterparty default, the Plan enters into swap contracts with counterparties whose creditworthiness has been approved by the trustee of the Trust. The Plan bears the market risk arising from any change in index or security values or interest rates.

At December 31, 2005, the Plan had the following swap contracts outstanding:

Interest Rate Swaps

8. Plan Termination

Although it has not expressed any intention to do so, the Company reserves the right under the Plan at any time to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all participants become fully vested in their accounts. In the event of plan termination, after payment of all expenses and proportional adjustment of accounts to reflect such expenses, fund losses or profits, and reallocations, each participant shall be entitled to receive all amounts then in his or her account.

9. Federal Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 8, 2003 that the design of the Plan meets the requirements for qualification under Code section 401(a), on which the tax exemption of the Trust under Code section 501(a) is based. The Plan has been amended since receiving the determination letter. The plan administrator and the Company's benefits counsel believe that the current design and operation of the Plan are consistent with continued qualification of the Plan and exemption of the Trust.

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

10. Related Party Transactions

The trustee of the Trust is Fidelity Management Trust Company (the “Trustee”). Certain plan investments are shares of mutual funds managed by affiliates of the Trustee and therefore, these transactions in addition to participant loans qualify as party-in-interest transactions. In addition, Mellon Trust of New England, N.A. (the “Custodian”) serves as custodian for certain assets of the Plan. Certain plan investments are issued by this Custodian and therefore, these transactions qualify as party-in-interest transactions.

In accordance with the provisions of the Plan, the Trustee acts as the Plan’s agent for purchases and sales of shares of Raytheon Company common stock. Purchases amounted to \$491,452,686 and sales amounted to \$632,379,941 for the year ended December 31, 2005.

11. Commitments and Contingencies

In May 2003, two purported class action lawsuits were filed on behalf of participants and beneficiaries in the Plan. The two class action complaints were brought pursuant to ERISA. Both lawsuits were substantially similar and were consolidated into a single action in September 2003. In April 2004, a Second Consolidated Amended Complaint was filed on behalf of participants and beneficiaries in the Plan since October 7, 1998. The Second Consolidated Complaint alleges that the Company, its Pension and Investment Group and its Investment Committee breached ERISA fiduciary duties by failing to (1) prudently and loyally manage plan assets, (2) monitor the Pension and Investment Group and the Investment Committee and provide them with accurate information, (3) provide complete and accurate information to plan participants and beneficiaries, and (4) avoid conflicts of interest. In October 2004, the Company filed a motion to dismiss. In September 2005, after a hearing on the Company’s Motion to Dismiss, the District Court issued an order scheduling a trial on the Company’s statute of limitations defense for June 2006. In mediation with a federal Magistrate in May 2006, the parties reached a tentative settlement. On June 23, 2006, a proposed settlement agreement was presented to the District Court for approval. If approved by the District Court, the settlement agreement would require the Company to pay \$5.5 million, with part of that amount payable directly to the Plan, part payable directly to certain participants and beneficiaries, and part payable for expenses. The Company would also pay plaintiffs’ attorney fees in an amount to be determined by a federal Magistrate within a range prescribed by the settlement agreement. Under the proposed settlement, the class for purposes of settlement would consist of any person who was a participant or beneficiary at any time between October 7, 1998, and April 30, 2006, and whose Plan accounts included investments in the Raytheon Common Stock Fund. The District Court has stayed any proceedings in light of the proposed settlement.

In June 2006, the Plan, as a member of the plaintiff class, received proceeds from the settlement of a class action lawsuit filed in 1999 against the Company, certain Company officers and directors, and the Company’s independent auditor, PricewaterhouseCoopers LLP. The Complaint alleged that the Company and certain officers and directors made material misrepresentations and omissions regarding certain business transactions. The plaintiff class includes all persons who, with certain exceptions, purchased the Company’s Class A or Class B common stock between October 7, 1998, and October 12, 1999. In accordance with a Stipulation and Settlement Agreement executed by the parties and a Distribution Order of the District Court, in June 2006 the Company paid the class members \$210 million in cash and issued 5-year warrants to purchase Raytheon common stock with a strike price of \$37.50 per share with a stipulated value upon issuance of \$200 million as calculated using the methodologies and criteria set forth in the Agreement. In addition, PricewaterhouseCoopers LLP paid the class members \$50 million in cash. In June 2006, the Plan received approximately \$25,623,164 in cash and 254,602 warrants in accordance with the Distribution Order. The cash component of settlement proceeds included amounts paid, in accordance with the Distribution Order, in lieu of warrants to any claimant (including any Plan

[Table of Contents](#)

Raytheon Savings and Investment Plan

Notes to Financial Statements

participant's account) who would otherwise have received fewer than 100 warrants (with the exception of four class members that had objected to such cash payment in lieu of warrants). The settlement proceeds, net of expenses incurred in connection with the Plan's claim and the handling of settlement proceeds, will be allocated among participants' accounts in accordance with the Distribution Order. Cash proceeds from disposition of warrants will only be allocated to participants' accounts after the Plan, upon direction of U.S. Trust Company, N.A. ("US Trust"), has disposed of all the warrants. In November 2004, the Company appointed US Trust as independent fiduciary responsible for representing the interests of the Plan in connection with the settlement and for managing the exercise or other disposition of any warrants received by the Plan in the settlement. The Company obtained an individual prohibited transaction exemption from the United States Department of Labor, effective February 13, 2006, with respect to the Plan's holding and exercise or other disposition of the warrants that are issued to the Plan.

In January 2006 five individuals, who are currently on leave from the Company while serving as business representatives of Electronic and Space Technicians Union Local 1553, sued the Company. The Complaint alleges that the termination of plaintiffs' ability to make contributions to, and receive matching contributions under, the Plan as of December 31, 2005 violated ERISA. Plaintiffs have filed two amended complaints (the first of which added the Plan as a defendant), most recently on June 5, 2006. In response to the Complaint and the Amended Complaints, the defendants have filed three Motions to Dismiss, most recently on June 22, 2006. At a hearing on the Second Motion to Dismiss in May 2006, the judge stated his intention to dismiss the suit, but gave the plaintiffs permission to file a Second Amended Complaint. Plaintiffs and defendants will have the opportunity to file additional briefs on the most recent Motion to Dismiss before the Motion to Dismiss comes before the judge again for action.

On April 12, 2006, the Company filed an application with the Internal Revenue Service to avail the Plan of the Voluntary Correction Procedure ("VCP") within the Employee Plans Compliance Resolution System. The application seeks voluntary correction of the fact that until December 31, 2005, the Plan accepted contributions by or on behalf of, and made matching contributions for, individuals on leave from the Company while serving as union business representatives in situations the same as or similar to the situations involved in the lawsuit described in the preceding paragraph. In the VCP application, the Company proposed that cessation of these contributions constitutes adequate correction. Other than acknowledging receipt of the application, the IRS has not yet responded to the application.

12. Subsequent Events

Effective July 1, 2006, all requirements that any participant accounts stay invested in the Raytheon Common Stock Fund will be eliminated, and there will be limits on participants' contributions and transfers to the Raytheon Common Stock Fund.
