\* It is expected that delivery of the notes will be made against payment therefor on or about May 22, 2015, which is four business days following the date of pricing of the notes (this settlement cycle being referred to as "T+4"). Under Rule 15c6-1 of the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade their notes on the date of this term sheet or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle in T+4, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade their notes on the date of this term sheet or the next succeeding business day should consult their own advisor.

\*\* Note: A security rating is not a recommendation to buy, sell or hold securities. Additionally, the security rating may be subject to revision or withdrawal at any time by the assigning rating organization. Each rating should be evaluated independently of any other rating.
